- Leading projects from the civil and structural perspective
- Involvement on projects from conception to completion

---

### SPECIAL INTERESTS:

- Modern methods of construction
- Minimising environmental impacts of building projects
- Refurbishment / re-use of existing structures

---

### COMPANY EXPERIENCE:

Nathan is a Chartered Engineer with over 9 years' experience in Structural Engineering. Nathan has led and delivered technically complex projects, working collaboratively with the client, contractor, and design team. Nathan has worked on a variety of projects including a technically complicated refurbishment scheme, which included new mezzanines within a prestigious central London office. Nathan has experience of working in healthcare, industrial, education, leisure and residential sectors. Nathan has also assisted Jon Chick on a variety of expert witness projects, including defect assessment and remediation schemes.

Nathan has worked for a variety of clients, including a design and build project Care Home for Barnes Construction, a 3-storey new build restaurant for McMullens, a new hospital facility for the NHS and new station buildings and platforms for TFL, LUL and London Overground.
