

Guy Dewdney – Associate

EMAIL: guy.dewdney@chick.co.uk

ACADEMIC & PROFESSIONAL QUALIFICATIONS:

MEng (Hons)	-	Ship Science / Naval Architecture
MSc	-	General Structural Engineering
CEng	-	Chartered Engineer
MIStructE	-	Member of the Institution of Structural Engineers

FIELDS OF ACTIVITY:

- Structural analysis and design in all major materials.
- Carrying out structural inspections, surveys and preparation of reports.
- Management of project delivery, including overseeing other engineers and the production of drawings.
- Liaison and co-ordination with clients, contractors and the design team.
- Communicating structural proposals, challenges or ideas through sketches, drawings and reports.

SPECIAL INTERESTS:

- Artificial Intelligence in engineering applications
- Collaborative working to solve complex problems
- Structural scheme development

COMPANY EXPERIENCE:

Guy is based in the Witham office and joined the company in September 2025, bringing over eight years' experience in structural engineering consultancy gained in London and Essex. Working both independently or as part of a larger team, he provides all aspects of structural engineering input across a broad range of projects, varying from fast turnaround refurbishment works to complex large scale schemes. He also has experience of preparing expert witness reports for London Arbitration proceedings.
